

Registered Nurses

Registered Nurses assess patient health problems and needs, develop and implement nursing care plans, and maintain medical records. Administer nursing care to ill, injured, convalescent, or disabled patients. May advise patients on health maintenance and disease prevention or provide case management. Licensing or registration exam is required before duties can be performed.

Employees in this field usually have an Associate's Degree and three to four years of occupation related experience. Registered Nurses have strong social and investigative interests and must be able to communicate and problem solve. Employees in this field are expected to have strong supervisor skills, maintain detailed reports, and monitor all aspects of patient care.
