

# Automotive Service Technicians

Automotive Service Technicians inspect, repair, and maintain automobiles and other gasoline, diesel, or alternate-fueled vehicles. Technicians complete a wide variety of repairs from simple engine tune-ups to tearing down, repairing, and rebuilding of complete power systems. Classroom training and on-the-job training are needed.

Employees in this field must have at least a high school diploma or GED. The job of Automotive Service Technician may appeal to those who enjoy activities that involve practical, hands-on problems and solutions. Automotive Technicians occupations satisfy those with technical or mechanical aptitudes.
